TO THE FRIENDS OF AGRICUL-TURE IN NEBRASKA.

As President of the State Board of Agriculture, I have sent out circuters each County clerk, and to prominent don's Object Teaching. agricultural information, and statis-Report to the Legislature, and for publication. I have recieved many valuable responses. Quite a number of topy to the very very unheard topy. Nathral Philosophy (to Optics), Drawing, Vocal Musters, Latin Reader (through quadratics), Latin Reader (through Roman History), Nathral Philosophy (to Optics), Drawing, Vocal Music. from. It is to be hoped every county in the State will report. The time is now near at hand, at which the annual report is to be made.

R. W. FURNAS. Will State papers please call at tention to this matter.

A splendid Suffolk sow was shipped by express from this city yester- out the year. was raised on the Morton farm and is said to be one of the finest specimens of the porcine family in the United States.-Nebraska City Chronicle.

The "Suffolk Sow" reached her destination in due time, and in good order. We regard her "as fine as can be made." She is from the celebrated John Wentworth stock, Chicago Ill., and bred by J. Sterling Morton, a devoted and successful Suffolk breeder, Nebraska City. The "porcine" comes to us as an "evidence of regards" for our hoggish proclivities, and is one of Morton's porkish tricks; highly valued and appreciated, by the way.

With many the Suffolk has give way to the large breeds. We know haps of the Berkshire. The Suffolk crosses are very fine. We propose a uate, (N. G.) cross with Poland, and will report re-

A corn husking match took place the other day near Nebraska City. Any student from any part of the State may enter the Normal Department if he fulfill the conditions prescribed. Chronicle. The contestants were Bennett, Spurlock and Holland. The corn was to be husked on the stalk, and cribbed; ten hours the days work.

A NEBRASHA FARM. The local editor of the Omaha Her-

ald, has been out to look at the farm of John Hollenbeck, of that vicinity, and speaks of it as follows:

"The farm consists of one thousand acres, about three hundred and fifty of which are under cultivation, one hundred and sixty enclosed in pasture, one hundred and forty planted with young timber, from one to six with young timber, from one to six The "Word Method" of teaching reading is reclaimed prarie. The farm is skirthedge, mostly of Osage orange, though learned presenting to the mind a distinct imsome rows are of white willow. On All recitations are conducted strictly on the favor of encouraging manufactures wants. His income is ten thousand, in our midst, and also establishes the the farm are kept about fifty hogs, of topical method, and written reviews are rety cows, and about seventy head of young stock cattle, all of pure or graded Durham breed, and twenty

eleven years without the aid of ferti-lizers, and had noticed no diminiiton in the crops. Last year, the oat crop school, and the branches pursued while in it bore lodged from rank growth. The coming spring an orchard of ten acres and about twenty acres of

profitable farm. We trust that this

All About Butter.

Until within a few days the article of fresh butter had been an unusually scarce commodity in the Omaha market, so much so that our merchants were forced to send east for a supply. Having now from the receipt of several car loads from Iowa and Illinois a full supply on hand, inquiries from the different dealers in Iowa are daily received concerning the condition of the Omaha butter market, and what the chances are to market, and what the chances are to supply. Having now from the receipt of several car loads from Iowa and Illinois a full supply on hand, inquiries from the different dealers in Iowa are daily received concerning the country for many miles around. The village is entirely free from all saloons or other haunts of vice, and the student has nothing to draw his attention from the work before him.

In the village is entirely free from all saloons or other haunts of vice, and the student has nothing to draw his attention from the work before him.

The school has twenty sections of land in the realroad interests of this place, Dr. Thompson in the chair, S. S. Dr. Thompson in the chair, S. S. Price, Sec. The objects of the meeting were stated by Mr. Scott, to be for the purpose of considering the question of extending the time to complete the St. Louis & Nebraska Trunk Railroad in order that the sublinked sweetness long drawn. An incorrespondence between an Iowa be devoted to paying the expenses incident to running the school. fully explain the present situation. We substitute names:

tween the Principal and those with whom students board in respect to the habits and conduct of the students at their rooms. This will be carefully attended to.

Physical exercise will be had daily throughout the whole school. Dr. Lewis' system of Light Gymnastics is adopted, with highly beneficial results.

A Literary Society is connected with the school, to which both ladies and gentlemen belong. A large room carpeted, and otherwise nestly furnished, is set apart for the exclusive use of the society.

The apparatus, though limited, is ample for the present wants of the Institution, to which the Board of Education is making constant additions.

EXAMINATIONS. &C.

SERBERT STREET,

EXAMINATIONS, &C. At the close of each term there will be a public examinations. Those students pur-suing the regular course will pass a written examination near the close of each term, and also an annual examination in all the studies pursued during the year, at the close Only such students as pass a satisfactory examination will be allowed to advance into the studies of the next year.

Public examinations commence on Monlay and continue until Wednesday noon. Wednesday afternoon the young ladies and gentlemen have their public exercises, conisting of original Orations and Essays, Mus The annual meting of the Board of Educa-tion takes place on Wednesday afternoon at the close of the summer term.

CARRIER PIGEONS.

Carrier pigeons, it is announced, are now the only means of communication between Paris and Tours, where the seat of government of France has been temporarily established. Since the introduction of the electromagnetic telegraph the use of carrier pig-eons has nearly been discontinued, although the means of conveying secret intelligence is still employed. They have, however, been more used in the Turkish dominions than in any other part of the world. The advantages to be derived from earrier pig- locate in Quincy. eons are very limited, as they cannot be dispatched to their homes except two weeks of their being let loose, and

at a time when they have young in their nests. The bird must also be kept in the dark, and without food for eight or ten hours before being released. The message is written on very thin paper, and enclosed in an envelope tied around the body and under the wings. Another inconvenience when the journey is for a long distance, arises from the bird's alighting sage may receive injury and be obliterated. In order to alleviate the paugs of thirst it is customary to bathe the pigeon's feet in vinegar so as to keep them cool. The instinct sociation to be composed of all those by which the carrier pigeon is guided who have a live interest in our cit y. TERMS AS CHEAP AS THE CHEAPEST. but cannot be trained to carry messages. When the carrier pigeons is let loose it rises spirally to a great height pires, and reports the result to the books, as far as possible, are supplied at a rate of thirty miles an hour. The carand then proceeds to its home at the Bennett husked and cribbed 119-87 bushels in 10:6; sparlock, 116-11 bushels in 10:6; Holland, 106-66 in 10:6.
